

Burn Your Village by Kiki Rockwell

I could burn your motherfuckin' village to the ground
I do not roll over like a motherfuckin' hound

I could crack your skull between these motherfuckin' thighs
I could doom your lineage with one look from these eyes
I could name the date in which they'll put you in the ground
You're the one who said it's justice watchin' witches drown (mother!)
Touch me again and I'll cut off your hand

[illegible]

This repeated phrase is German and can be translated into English as follows:

“ The sky is my room

Kiki has said that her intended meaning was:

“ Heaven is my bedroom
